

Heatmap visualization showing the distribution of player totals (Y-axis, ranging from 12 to 21) across 9 categories (X-axis, labeled 1 to 9). The color scale represents the frequency or count of players, with darker colors indicating higher values.

Key observations from the heatmap:

- Category 1 shows a high frequency of players with totals between 15 and 17.
- Category 2 shows a high frequency of players with totals between 19 and 21.
- Category 3 shows a high frequency of players with totals between 19 and 21.
- Category 4 shows a high frequency of players with totals between 19 and 21.
- Category 5 shows a high frequency of players with totals between 19 and 21.
- Category 6 shows a high frequency of players with totals between 19 and 21.
- Category 7 shows a high frequency of players with totals between 19 and 21.
- Category 8 shows a high frequency of players with totals between 19 and 21.
- Category 9 shows a high frequency of players with totals between 19 and 21.
