

Heatmap visualization of the 2010 US Census data for the variable 'Age' across 100 counties. The y-axis represents age groups (12 to 21), and the x-axis represents the 100 counties. The color scale ranges from dark purple (low values) to yellow (high values). High values are concentrated in the 12-14 age groups for the first 25 counties and the 15-17 age groups for the last 25 counties.
