

An abstract geometric pattern composed of various colored squares on a white background. The colors include teal, yellow, light green, dark green, and purple. The squares are arranged in a non-repeating, scattered fashion. For example, there is a yellow square in the top left, a teal square in the top center, a light green square in the top right, a dark green square in the middle left, a purple square in the middle right, and a teal square in the bottom left. The squares vary in size and are distributed across the entire image.
