

The heatmap displays a 10x10 grid of colored squares. The colors represent values, with a gradient from dark purple (low) to bright yellow (high). The highest values (yellow) are located in the center-right area, specifically in the 5th row, 7th column. The lowest values (dark purple) are found in the bottom-left and top-right corners. The grid is composed of 100 squares in total.
